About This Year....

2022

“ Together To Protect Human and Environment Association ”

This year has been an incredibly successful one for our organization. We have achieved numerous milestones, including Presenting sessions for (study centers - Primary health centers) in Iraq and KRI, and Also launching a new Project in an Educational Environment program and that has seen considerable success in the expanding our operations into a new Area.

The biggest challenge has been and still is, to make sure that we retain our culture and a sense of community even though we all work remotely. To make sure everyone feels that we are in this together and that we all share the ambition to build trust in the everyday.

Our team is proud to have come together to create such amazing results for 2022 and we look forward to continuing this momentum as we move into the next year..

Together

Mission

Our mission is to bring a positive change in the behavior of Iraqi individuals and institutions by studying relevant legislation and laws to ensure the safety of human rights and the environment.

We strive to understand how best practices can be implemented, as well as what changes need to be made within existing frameworks. By engaging with local stakeholders, we aim at creating an atmosphere where respect for each other's beliefs is fostered while also ensuring that all citizens are able to enjoy their basic rights.

...

To Achieve

Vission

Our vision is to create a society in Iraq that lives in peace, respects human rights and preserves the environment.

We strive to make a positive change by encouraging individuals and institutions alike to adopt behaviors that promote security, peace, respect for human rights, and environmental safety. To achieve this goal we will review existing laws related to these topics as well as advocate for new legislation that seeks justice for all members of society. Ultimately our aim is an equitable state where everyone can feel secure with their basic needs met without compromising on their dignity or harming the planet's resources.

Together

Together

Together celebrate internationals days (Environmental days, earth day, health day, peace day, child day ,youth day, women day) using the global slogans of those days to invest these opportunities to send awareness messages to the people about the topic of the year and to mobilize the community to take actions to the most pressing challenges and be part of the solutions.

Days Activities

The most pressing issues are climate change, human rights, children rights ,gender based violence ,family planning ,so thinking globally and working locally is the main approach of Together to be part of the global movement to engage the whole community through different activities , awareness sessions, festivals, seminars, online sessions, training programs.

“ MASAROUNA PROJECT ”

“ Together Association is a Partner of this Project in ERBIL ”

MASAROUNA mobilizes the power of young people in the Middle East and North Africa so they can claim their sexual and reproductive health and rights (SRHR). We work with and for young people, and together we forge new pathways through influencing and strengthening civil society.

MASAROUNA project which is implemented in partnership with Oxfam and supported by Dutch Ministry of Foreign Affairs.

The Masarouna project in Iraq supports YP in the Kurdistan Region of Iraq (KRI) in accessing comprehensive SRHR information through increased knowledge, building of alliances and solidarity and creating supportive environments to enable YP demand and enjoy their SRHR. Under the Masarouna project, Together is one of Oxfam partners worked with young people (YP) to influence decision-makers and different actors of society to address legislation and transform social norms. In addition to creating a lasting systemic and behavioral change while addressing root causes and barriers preventing YP from claiming their SRHR. Furthermore, the project mobilize, engage, and build relationships with the communities in the targeted areas by actively involving them through the design and implementation of the project strategies and activities. The project also includes knowledge sharing, creating spaces for engagement and dialogue, and building networks and alliances.

THANK YOU !
FOR BEING
TOGETHER
AT THIS YEAR.
